DRYER CATWALK PACKAGE

Made Specifically for SUPERB ENERGY MISER[®] SQ Series Dryers

A secure platform for service and maintenance access.

Grain drying often takes place during inclement weather, when condensation or moisture can create hazardous conditions for operators who need to access the top of the dryer. The optional Brock catwalk package for SUPERB ENERGY MISER[®] SQ Series Dryers provides a secure platform to protect workers from slips and falls when they are completing dryer service inspections or other maintenance procedures.

Safeguarding Your Grain[®] Since 1957

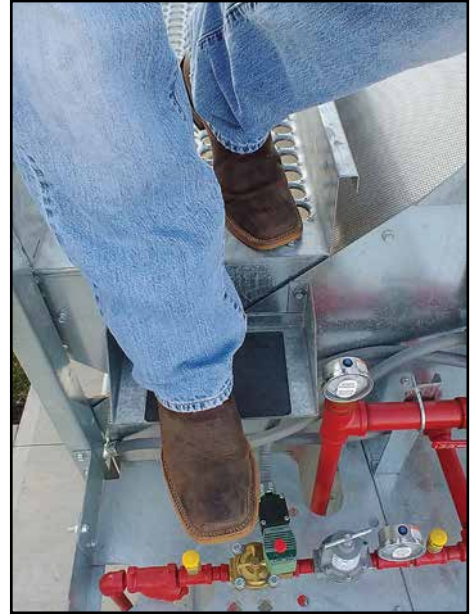

BROCK® Dryer Catwalk Package

Easy access. The optional BROCK® dryer catwalk helps operators properly maintain and clean the loading hoppers and stainless steel outer skins on SUPERB ENERGY MISER® SQ Series Dryers.

Worker safety. Slip-resistant platforms and sturdy handrails on the Brock catwalk provide a stable and solid work environment when servicing dryer flange bearings and augers.

Regular maintenance. The Brock catwalk makes it easier to reach important dryer components like moisture sensors and gas controls. It helps workers complete maintenance procedures on a consistent schedule.
